

Master Key System

Smart, Scalable, Super-Efficient

MUL-T-LOCK®

Mul-T-Lock®

Master Key Solution

Mul-T-Lock offers a wide range of master key solutions to address the varying needs of different business sectors and their unique environments. Our professionals will help you design, build and maintain master key systems (MKS) that grow and adapt with you.

Mul-T-Lock MKS solutions can be applied to any of our High Security locking platforms. And we'll provide you with everything you need to create the ideal system that's highly effective and efficient, including ongoing expert support.

From Simple to Highly Complex, Master Key Systems for Every Environment

Mul-T-Lock solutions for Master Key Systems provide:

Comprehensive range of solutions designed to address any locking need

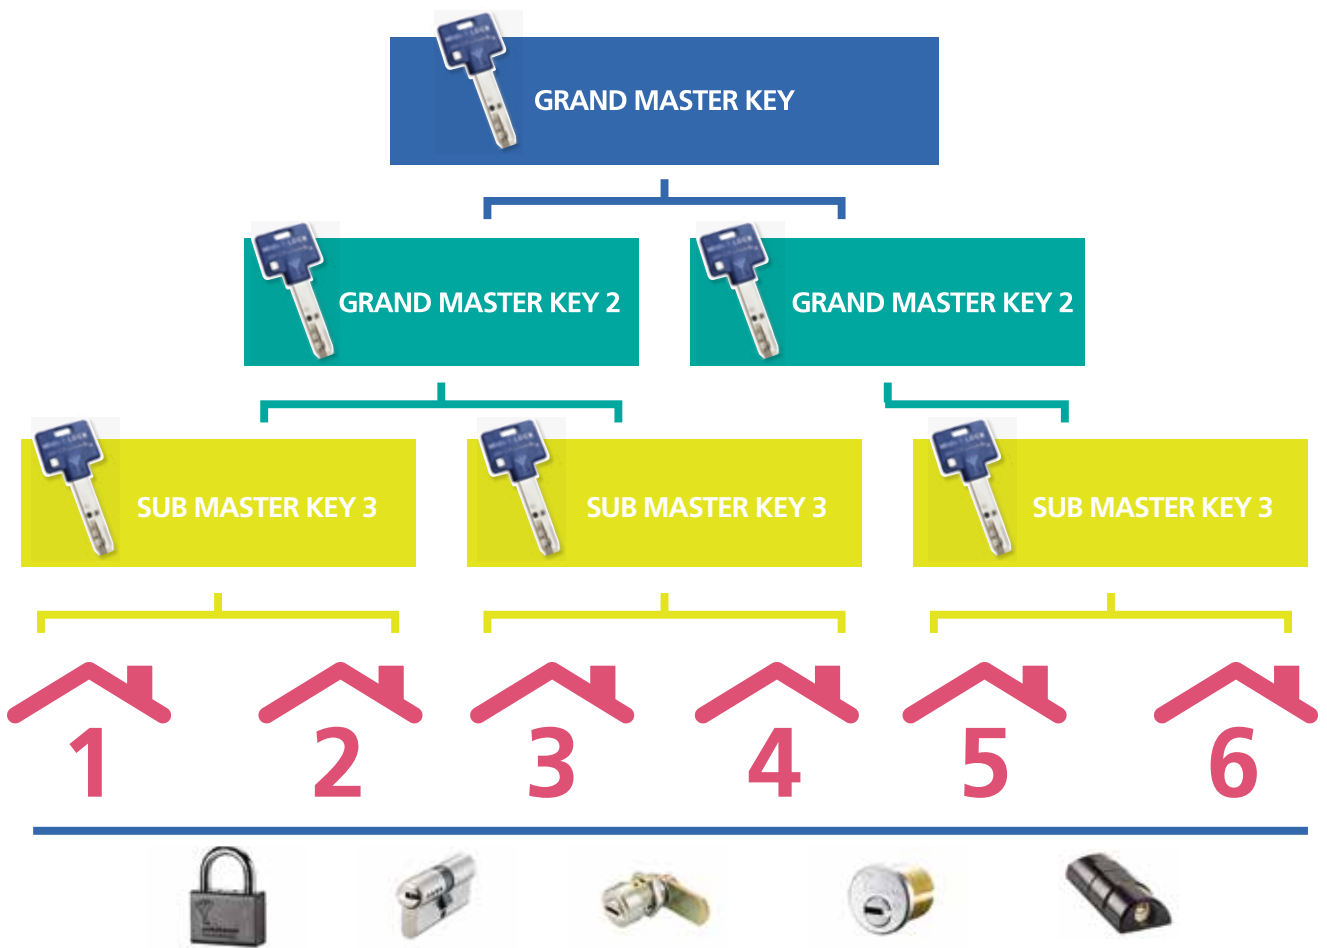

Ability to incorporate a wide range of product types into the system using a single key

Complex system-design capabilities

Scalability to serve dynamic and growing environment

MKS Benefits

Enhanced Security

With increased control over access and fewer keys that could be lost or stolen.

Cost-effective, Resource Reduction

Through efficiencies and single-key access, you'll need to create and recreate fewer keys.

Customizable

Depending on needs, the Master Key System can be applied to the Mul-T-Lock High Security platform that is most suitable and to a wide range of products including various lock and cylinder types.

Convenient

Each user has access to what they need and only what they're authorized for, including central doors, internal doors, garage doors, mailboxes, cabinets and more.

Scalable to Any-sized Environment

The robustness of Mul-T-Lock's solution designed to serve dynamic and growing environment to address the security needs.

Expert Support

You've got expert support whenever you need it. We'll help you achieve what you need to, when you need it.

MKS Features

High-Security Protection

As a leading provider of high-security locking systems, Mul-T-Lock adheres to the world's most stringent standards.

MASTERpiece Software

Provides the design, planning, management and development of Master Key Systems.

Combined Electronic/Mechanical Systems

In addition to mechanical hardware, systems can be enhanced with electronic locking for an additional layer of security.

Design Options

Various design options enable the further expansion of the system.

Mul-T-Lock® is a worldwide leader in developing, manufacturing and marketing High Security products and Access Control solutions to the residential, commercial and institutional markets, for over 40 years. Adhering to the most stringent security standards, Mul-T-Lock products are sold via 20,000 authorized and trained service centers on every continent. Mul-T-Lock owns patented protected technologies such as the MT5®+ and Interactive®+ platforms and the innovative ENTR® smart lock solution. Mul-T-Lock® is an ASSA ABLOY Group.
